**Marik Enterprise** is the evolution of a historical reality born in Ferrara in **1971** under the name of Volta & Verzella snc.

With over **40 years** of history and experience, the know-how gained in the construction of shafts and gears is of primary importance for you to propose to its customers as partners and not simply as a subcontractor.

Acquisition of orders, the organization of the production process, the certification of the finished product, the company provides professional, experienced and technologically advanced equipment such as instruments to address the high level of quality that the market requires.

Since 1971 **MARIK Enterprise srl** manufactures transmissions, shafts, pinions, gears (for wind energy applications), worms and ball screws on order for third parties.

Issuing certification of internal control of processes, certification of conformity of the steel and heat treatment.

**MARIK Enterprise**  
**TECHNOLOGY EXPERTISE AND SERVICE.**
